

END USER LICENSE AGREEMENT

PREFACE: This End-User License Agreement ("EULA") is a legal agreement between you and Forge Audio Designs for the Forge Audio Designs product accompanying this EULA, which includes computer software and may include associated media, printed materials, and online or electronic documentation ("Software"). By installing, copying, or using the software, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, you may not use the software. The software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The software is licensed, not sold.

1. Disclaimer

The software is provided "as is" and without warranty of any kind. The entire risk arising out of the use or performance of the software and documentation remains with user. Forge Audio Designs, Daniel Clarke, author of this Forge Audio Designs product, specifically disclaim all warranties, expressed or implied, including but not limited to implied warranties of merchantability and fitness for a particular purpose. In no event shall Forge Audio Designs, Daniel Clarke, be liable for any damage a Forge Audio Designs product may cause, including but not limited to special, incidental, consequential, direct, indirect punitive or other damages (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or other pecuniary loss) arising out of this EULA or the use of or inability to use the software, even if Forge Audio Designs has been advised of the possibility of such damages.

2. Terms of Use

Forge Audio Designs grants the Owner of a Forge Audio Designs product the right to create finished musical works and performances using the software that comprise the Forge Audio Designs product.

You may not reverse engineer, reverse compile, or disassemble any of the files in the distribution.

The Owner may not transfer, modify, rent, lease, loan, resell, distribute, network, electronically transmit or merge the Software.
